## EDUCATION

**Delhi Technological University**

**North Delhi, India**

*B-Tech in Mechanical Engineering*

*Expected Graduation, May 2028*

- **Areas of Interest:** Artificial Intelligence, Machine Learning, Data Science
- **CGPA:** 7.48/10.00 (*till Semester IV*)
- **Related Coursework:** Programming Fundamentals, Object-Oriented Programming, Data Structures and Algorithms, Discrete Mathematics, Probability and Statistics, Database Management Systems, Operating Systems, Computer Organization and Architecture, Artificial Intelligence, Machine Learning, Theory of Computation.

**Class XII (CBSE) (2024)**

**Vivekanand International School, Delhi — 79.4%**

**Class X (CBSE) (2022)**

**Vivekanand International School, Delhi — 77.4%**

## SKILLS

**Programming:** C, C++, Python, SQL, HTML/CSS, Java (Basic)

**Tools & Technologies:** C++, Python, JavaScript, SQL, HTML, CSS, React.js, Node.js (Basic), Express.js (Basic), Three.js (Basic), NumPy, Pandas, MySQL, Git, GitHub, VS Code, Jupyter Notebook, MATLAB, Figma, Tableau

## PROJECTS

**SoundWave AI** 🔗 | React.js, GSAP, JS, Python 🔄

**May 2026 – Present**

- Developing an AI-powered music recommendation platform leveraging user listening behavior and preference patterns.
- Implementing personalized song and artist recommendations using preference analysis.
- Building analytics to track listening habits and promote discovery of emerging creators.

**Shagun Fashion Website** 🔗 | React.js, Framer, Figma, HTML, CSS, JS 🔄

**June 2026**

- Designed a modern and responsive fashion e-commerce website UI using **Figma** and **Framer**.
- Developed the frontend in **React.js**, creating reusable components for product listings, collections, and navigation.
- Implemented responsive layouts, smooth animations, and an intuitive user interface to enhance the online shopping experience.

**Domiq AI** 🔗 | Node.js, React.js, JS, Gemini API, OpenRouter API 🔄

**June 2026 – Jul 2026**

- Built a full-stack AI interior design platform that generates realistic **2D and 3D room designs** from natural language prompts.
- Integrated **Gemini** and **OpenRouter** AI models to enable conversational design assistance, room customization, and intelligent recommendations.
- Developed an AI-powered **room cost estimation** feature that analyses generated designs to provide approximate interior furnishing and renovation costs.

## WORKSHOP AND ACTIVITIES

**Design & 3D Printing Workshop | Delhi Technological University**

**Aug 2025 – Present**

- Participated in a two-day workshop on Design & 3D Printing organized by the Department of Mechanical Engineering, DTU.
- Acquired practical knowledge of CAD design, additive manufacturing, and rapid prototyping technique

## ACHIEVEMENTS AND CERTIFICATIONS

- Certifications (Python, React, Flask, SQL, AI/ML, etc.): 🔗 [View All](#)
